It is thought that they were making for the wild west, incited to the expedition by frequent perusal of flash literatur . It is probable however, that before they boot it far their enthusiasm will have vanished. The father is in sore distress over the runa-

How Nicknames Stick.

Chicago Inter Ocean. "I find these army names," said an old Indianian, "sticking to a good many name I find a story. Over in my old district is a man named Sandy. To the ordinary observer there is no reason in the world for the nickname and no ap-propriateness in it. But in one of the near the time. He crept up to within a few feet of the vidette post of the rebel pickets, and quietly digging a hole in the sand he burrowed there until nearly morning listening to all that
was said. When he came back to report
he must have shaken two or three quarts
of sand from his clothes and his shoes, and the boys gave him on the spot the name of Sandy. It stuck to him through his army career, and now that he is in public life he is still called Sandy."
